

NETSUITE-STRIPE INTEGRATION

Improve your checkout experience integrating Stripe into your SCA store.

What it does?

Integrate Stripe into your SuiteCommerce Advanced website as an external payment gateway to unlock new payment methods.

What it solves

Give your clients a more versatile payment experience in your SCA store with Stripe, adding multiple digital wallets that aren't native to SCA, e.g., Apple Pay, Google Pay.

Who is it for?

All SCA merchants looking to expand their payment method options. Applicable to B2C and B2B merchants alike, and from all industry verticals.

Requirements

- SuiteCommerce Advanced
- SuiteCommerce Extensions (Aconcagua or newer versions).
- An active Stripe account

About Stripe

Stripe provides a wide range of functions that businesses can use to manage their online payments and transactions. Some of the key functions of Stripe include:

Payment Processing:

Accept payments from customers using credit cards, debit cards, and other payment methods.

Fraud Detection and Prevention:

Detect and prevent fraudulent transactions, including machine learning models and advanced fraud detection algorithms.

Checkout and Payment Pages:

Customizable checkout and payment pages for you to streamline the payment process and improve user experience.

Stripe's benefits

Overall, Stripe's support for multiple payment methods makes it easy for businesses to accept payments from customers all around the world, while providing a seamless and secure payment experience:

Credit and Debit Cards:

All major credit and debit cards, including Visa, Mastercard, American Express, Discover, JCB, and Diners Club.

Digital Wallets:

Digital wallets such as Apple Pay, Google Pay, and Microsoft Pay, making it easy for customers to pay using their mobile devices.

Bank Transfers:

Bank transfers through the Automated Clearing House (ACH) network in the United States, SEPA transfers in Europe, and direct debit payments in other countries.
